

THE OVEN MITT GAME

A Christmas gift challenge for all ages

1. Players gather around a table with oven mitts, a wrapped present, and a pair of dice.

The present should be *heavily* wrapped with paper, tape, plastic wrap, and who-knows-what-else.

2. Roll the dice to see who gets to go first.

The first player dons the oven mitts while the player to their left gets the dice.

3. On go, the player with the oven mitts attempts to open the present before the second player rolls doubles with the dice.

Players must use their mitted hands only to open the present - no teeth!

4. If the second player rolls doubles before the first player opens the present, everything shifts to the left (clockwise).

Now it's the *second* player's chance to open the present and the *third* player's chance to roll the dice.

5. Repeat until someone succeeds in opening the present before the next person rolls doubles.

Whoever opens the present is the winner and gets to keep it!
